## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 11 and 18, drawn to a phosphonate copolymer, classified in class 525, subclass 538.
- II. Claims 19-20 and 22, drawn to a method for preparing a phosphonate homopolymer or copolymer, classified in class 528, subclass 176.
- III. Claims 21 and 23, drawn to another method for preparing a phosphonate homopolymer or copolymer, classified in class 528, subclass 167.
- IV. Claim 24, drawn to a method for preparing an optical or ophthalmic lens, classified in class 264, subclass 1.32.

The inventions are distinct, each from the other because of the reasons: as stated from the parent case since this restriction is also carried form the parent case.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
